User Guide v0.4.0

AI-powered M&A, IPO readiness, and hedge fund intelligence platform

Predictive Labs Ltd

User Guide — AI ECM / IB Analyst Squad for M&A; and IPO

Version 0.4.0 · Predictive Labs Ltd · Live at liquidround.ai

An AI-powered M&A, IPO readiness, and hedge fund intelligence platform.

23 specialist agents — buyer-led sourcing and diligence, seller-led positioning

and IPO readiness, and public markets intelligence — in one chat-first workspace.

What this platform is for

LiquidRound is the AI ECM / IB analyst squad — a chat-first workspace where

every question routes to the right specialist agent automatically.

- **Buy-side:** Find acquisition targets, run diligence, score matches, and draft IC memos.
- **Sell-side:** Prepare for sale (teasers / CIMs), identify buyers, and assess IPO readiness.
- **Public markets:** Explore SEC 13F institutional holdings, fund AUM rankings, and activist filings.
- **BYOD:** Upload your own pitch books, CIMs, and term sheets — agents read, cite, and draft from them.

*The whole product answers one question: ****"Who should we look at, what is it worth, and what are the risks — ready for IC?"*****

Getting started

Open **liquidround.ai** and choose your side:

- **Buyer-Led** — the app defaults to sourcing, diligence, and valuation agents.
- **Seller-Led** — the app defaults to positioning, teaser, and IPO readiness agents.

Sign in or register to save sessions, conversations, and pipelines. Guest users can still use the full chat with in-memory sessions.

The platform — one system, every stage

Your ECM / IB analyst squad spans 6 workflow categories:

- **Deal Sourcing & Screening** (4 agents) — target scanning, buyer scanning, deal triage, seller intent
- **Valuation & Underwriting** (6 agents) — company profiling, DCF, comps, LTM, multiples, synergy
- **Due Diligence Stack** (5 agents) — VDR audit, contract abstraction, legal, operational, ESG
- **Deal Execution & Capital** (5 agents) — IC memo, teaser, bid strategy, IPO readiness, integration
- **Research & Post-Deal** (2 agents) — research analyst, match scorer
- **Public Markets & Hedge Funds** (1 agent) — SEC 13F holdings, fund AUM, activist filings

The chat interface — your primary workspace

Chat interface

The screen has **three panes** that stay consistent everywhere:

- **Left** — navigation: Sessions, Agents (6 categories), Tools, Public Markets, Hedge Funds, Workspace (10 pages), Training, Help.
- **Centre** — the chat: welcome hero with example prompts, message thread, and input bar.
- **Right** — the artifact canvas: News, Artifact tabs for agent-produced tables, charts, citations, and PDF previews.

Ask a question

Type a natural-language question — **"Find founder-owned vet clinics in the Baltics with EUR 4M+ EBITDA"** — and the **auto-router** picks the best agent.

Use a **prefix command** to route directly to a specific agent:

Agent browser — 23 specialists at a glance

Agent browser expanded

Click any **agent category** in the left nav to expand it. Each agent shows its name and prefix shortcut. Click an agent to fill the chat input with a sample question — the router picks up automatically.

Each agent has its own system prompt and tool set. View and customize prompts in **Help → Instructions**.

Hedge Fund Treemap

Hedge Fund Treemap

SEC Form 13F institutional holdings — top positions across funds

Hedge Fund Treemap

Interactive Plotly treemap at **Hedge Funds** → **Fund Treemap** showing SEC Form 13F institutional holdings. Cell size is proportional to portfolio value.

Filter controls:

- **Fund** — search for a specific fund manager (e.g. "Bridgewater", "Vanguard")
- **Min Value (\$)** — filter positions by minimum value (\$1M, \$10M, \$100M, \$1B)
- **Limit** — number of positions to display (200, 500, 1000)

Click **Apply** to refresh the treemap.

Chat commands

Click these in the left nav or type the prefix in chat:

- **Top Holdings** — `hedgefunds: top funds by AUM`
- **Popular Securities** — `hedgefunds: most popular securities across all funds`
- **Activist Filings** — `hedgefunds: recent activist filings`
- **Fund Search** — `hedgefunds: search for Bridgewater`

Data source

All hedge fund data comes from SEC Form 13F filings — mandatory quarterly disclosures by institutional investment managers with over \$100M in qualifying assets. Approximately **10,000+ fund managers** and **7 million+ holdings** in the database.
