AI-Powered M&A and IPO Platform

Predictive Labs Ltd

June 2026

AI-Powered M&A and IPO Platform

Your ECM / IB analyst squad — 22 specialist AI agents across sourcing, underwriting, diligence, capital markets, and portfolio management.

Version 0.3.0 — June 2026

Predictive Labs Ltd

Getting Started

Landing page

LiquidRound is a dual-mode platform for both sides of M&A and IPO deals:

- **Buyers** — find acquisition targets, run diligence, score deals, and draft IC memos
- **Sellers** — prepare for sale (teasers, CIMs), identify potential buyers, and assess IPO readiness

Accessing the Platform:

1. Visit liquidround.ai
2. Choose your role: **Buyer-Led** or **Seller-Led**
3. Start chatting with the AI agent squad — no sign-up required for basic use
4. **Sign in** (optional) for persistent conversations, sharing, and full features

Language Support — four languages via the flag dropdown in the top-right corner: English (default) · Eesti · Lietuvių · Latviešu. Click the flag icon to switch. The interface, navigation, and tool labels update instantly.

Free Tool: Market Comparables

Market Comps results

The **Market Comparables** tool benchmarks your company against industry M&A transaction multiples using Damodaran's dataset (96 revenue sectors, 92 EBITDA sectors). No sign-in required.

How to use:

1. Enter your company website URL and click **Analyse**
2. The AI scrapes your website, identifies your sector, and pre-fills company details
3. Enter your financials: **Revenue**, **Pre-tax Profit**, and **Owner Salary** (EUR)
4. Click **Calculate Comparables** to see:
 - **Sector M&A snapshot** — median EV/Revenue and EV/EBITDA multiples for your industry
 - **Estimated valuation range** — based on your financials applied to sector multiples
 - **Key value drivers** — AI-generated analysis of what drives (or discounts) value in your sector

The tool uses Damodaran's industry classification. If your sector seems off, check that your website clearly describes your core business.

The screenshot shows the 'Market Comparables' tool interface. At the top, there's a navigation bar with 'LiquidRound', 'Platform', 'ECM Squad', 'Tools', 'Industries', 'Pricing', and a 'Sign In' button. Below the navigation bar, the title 'Market Comparables' is displayed, followed by a subtitle: 'See how your business compares to sector M&A benchmarks. Enter your company URL to get started.' The main content area is divided into several sections: 1. 'melivus.se' (the company URL entered). 2. 'Sector M&A Snapshot' showing 'EV / Revenue multiple' as 3.0x and 'EV / EBITDA multiple' as 8.0x, with a note 'Based on Damodaran sector data for'. 3. 'Your Company Metrics' with a table: 'Annual Revenue' (€0), 'Pre-tax Profit' (€0), and 'Owner Salary / Cost' (€0). 4. 'Estimated Valuation Range' with a table: 'Revenue-based EV (Revenue)' (€0) and 'Earnings-based EV (EBITDA)' (€0), followed by an 'Estimated Range' of '€0 — €0'. 5. A 'Book a 15-minute call' section with a form for 'Full Name', 'Email', 'Phone (optional)', and 'Timezone', and a 'Book Call' button. The footer contains 'LiquidRound © 2020 Predictive Labs Ltd.' and a 'Contact' link.

Free Tool: Find Buyers

Find Buyers results

The **Find Buyers** tool matches your company with potential acquirers using a hybrid approach: Baltic company databases (Estonia, Lithuania, Latvia) combined with AI-powered web research.

How to use:

1. Enter your company website URL and click **Analyse**
2. Review the AI-extracted company profile (sector, sub-sector, products, end markets)
3. Click **Find Buyers** to see matched potential acquirers:
 - **3 full buyer profiles** with AI-generated match rationale
 - **Strategic fit analysis** — why each buyer would be interested
 - **Source** — whether the match came from Baltic registry data or web research

Data sources: Estonia (~60K companies), Lithuania (~166K), Latvia (~3.6M) — sourced from national business registries. Combined with Tavily web research to find both local strategic buyers and international PE firms.

Free Tool: Business Valuation

Valuation results

The **Business Valuation** tool provides a multi-method valuation estimate using industry-standard approaches. No sign-in required. All amounts are in EUR.

How to use:

1. Enter your company website URL and click **Analyse**
2. Enter financials: **Revenue**, **Pre-tax Profit**, and **Owner Salary** (EUR)
3. Click **Calculate Valuation** to see a 3-step result:

Step 1 — Deal Comparables: Sector transaction multiples (EV/Revenue, EV/EBITDA) from Damodaran's dataset, applied to your financials.

Step 2 — Value Drivers: AI-identified factors that positively or negatively affect your company's valuation — recurring revenue, market position, concentration risk, growth trajectory.

Step 3 — Valuation Range: Combined estimate showing low/mid/high enterprise values based on multiple methods (SDE, EBITDA multiples, revenue multiples). The valuation is indicative — a full engagement produces a detailed report with sensitivity analysis.

The screenshot shows the 'Business Valuation' tool interface. At the top, there's a navigation bar with 'LiquidRound', 'Platform', 'EDM Squad', 'Tools', 'Industries', 'Pricing', and a 'Sign In' button. Below the navigation bar, the title 'Business Valuation' is displayed with a 'Free Test' button. A subtitle reads: 'Get an indicative valuation range based on sector benchmarks and your financials.' The main content area is divided into three steps:

- Step 1: Deal Comparables**
 - Input:
 - EBITDA multiple: 8.0x
 - EBITDA multiple: 8.0x
 - Multiples sourced from Damodaran Industry Benchmarks.
- Step 2: Value Drivers**
 - Established client network with strong local brand recognition
 - Recurring revenue from ongoing patient care and therapy programs
 - Stable model supporting digital health and service expansion
 - High barriers to entry from specialized medical expertise
 - Limited geographic distribution beyond Europe
 - Regulatory and reimbursement risks in healthcare sector
 - Dependence on key medical staff and public funding
- Step 3: Valuation Range**
 - Revenue-based valuation: €0 — €0
 - EBITDA-based valuation: €0 — €0
 - Estimated Enterprise Value: €0 — €0
 - Revenue: €0
 - This is an indicative range based on sector benchmarks. A formal valuation requires detailed financial analysis, adjusted EBITDA, and market-specific factors.

At the bottom, there's a 'Book a 15-minute call' section with a form for 'Full Name', 'Email', 'Phone (optional)', and 'Executive', followed by a 'Book Call' button. The footer includes 'LiquidRound © 2020 Predictive Labs Ltd.' and a 'Contact' link.

Industry Pages

Technology industry page

LiquidRound provides sector-specific landing pages with tailored M&A context, sub-sector breakdowns, and regional advisor connections. Four industries covered:

- **Technology & SaaS** — Enterprise SaaS, FinTech, E-Commerce, IT Services
- **Manufacturing** — Precision Engineering, Food & Beverage, Building Materials, Industrial Automation
- **Healthcare** — HealthTech / Digital, Medical Devices, Pharmaceutical, Clinical Services
- **Business Services** — Management Consulting, Accounting & Legal, HR & Staffing, Marketing & Digital

Each industry page includes: sector overview and M&A landscape, four sub-sector cards, regional advisor links (**Orion Corporate Finance** • **Superia**), sector-specific FAQs (5 per industry), and an inline buyer search widget.

The Chat Application

App chat interface

The core of LiquidRound is the 3-pane chat application at `/app`:

- **Left pane** — Sessions, Agents directory, Tools links, Workspace, Configuration
- **Center pane** — Chat messages with the AI agent squad
- **Right pane** — Artifact canvas (Documents, Research, Scores, Compare tabs)

Choosing a Role: Select **Buyer-Led** or **Seller-Led** at entry. This controls which welcome cards, suggested prompts, and agent chips appear. Switch anytime via the **Configuration** widget (type `settings` in chat).

Chat Commands — type a prefix like `profile:MSFT`, `financials:AAPL`, `valuation:NVDA`, `targets industry:fintech`, `score buyer:X target:Y`, `keyterms report.pdf`, `news:TSLA`, `buyers sector:saas`, `research`, `docs`, `settings`, `help`, or `clear`. Or just use **natural language** — the AI router picks the best specialist agent automatically.

ECM Agent Squad (22 Agents)

Agent directory

LiquidRound's AI backbone is the **ECM Agent Squad** — 22 specialist agents organized into 5 categories. Invoke via prefix (e.g. `scan: find SaaS in Nordics >€5M ARR`) or natural language.

Sourcing (4): `scan:` Deal Scanner · `triage:` Triage Analyst · `intent:` Intent Mapper · `comps:` Comps Analyst

Underwriting (6): `ltm:` LTM Builder · `dcf:` DCF Modeller · `multi:` Multiples Analyst · `synergy:` Synergy Analyst · `bid:` Bid Strategist · `integrate:` Integration Planner

Diligence (5): `vdr:` VDR Analyst · `abstract:` Abstract Writer · `legal:` Legal Reviewer · `ops:` Ops Analyst · `esg:` ESG Analyst

Capital Markets (5): `memo:` IC Memo Writer · `teaser:` Teaser Builder · CIM Drafter · IPO Readiness · Pitch Deck

Portfolio (2): Portfolio Monitor · Exit Planner

Documents, Research & Scoring

Uploading Documents — upload PDFs, Excel, and PowerPoint files directly in the chat:

- **PDF** — text and table extraction (pdfplumber)
- **XLSX** — all sheets parsed (openpyxl)
- **PPTX** — slide text and notes (python-pptx)

Type `docs` to list uploads, `keyterms filename.pdf` to extract key terms.

Research Tools — two integrated engines:

- **EXA** — semantic search for conceptually similar content
- **Tavily** — web search with advanced depth for comprehensive coverage

Type `research topic` for a deep research pass, or let agents invoke tools automatically.

Deal Scoring — type `score buyer:CompanyA target:CompanyB` for a 7-dimension radar: Strategic Fit · Financial Health · Synergy Potential · Market Position · Management Quality · Cultural Fit · Risk Profile.

In-App Valuation — type `valuation:TICKER` for multi-method analysis: DCF · EV/Revenue · EV/EBITDA · EV/EBIT — using Damodaran sector data and yfinance market data.

Account, Sharing & Settings

Sign-in page

Sign In — two authentication methods:

- **Google OAuth** — one-click sign-in
- **Email + Password** — traditional registration

Visit liquidround.ai/signin to sign in, [/register](#) to create an account, [/forgot](#) to reset your password.

Profile Settings (at [/profile](#)):

- **Account info** — name, email, company
- **M&A preferences** — deal size range, target sectors, geographic focus
- **Notifications** — daily digest email opt-in/opt-out

Daily Digest — automated M&A intelligence email with featured deals, market insights, and company spotlights. Configurable: daily, weekly, or off.

Sharing — click **Share** in the chat header to generate a read-only link. Anyone with the link can view the conversation (no auth required).

PDF Export — after generating an IC Memo or Teaser, click **Download PDF** for a professionally formatted document. **Shortcuts:** [Enter](#) to send, [Shift+Enter](#) for new line. URL param [?role=seller](#) starts the app in seller mode.
