Demo at a glance

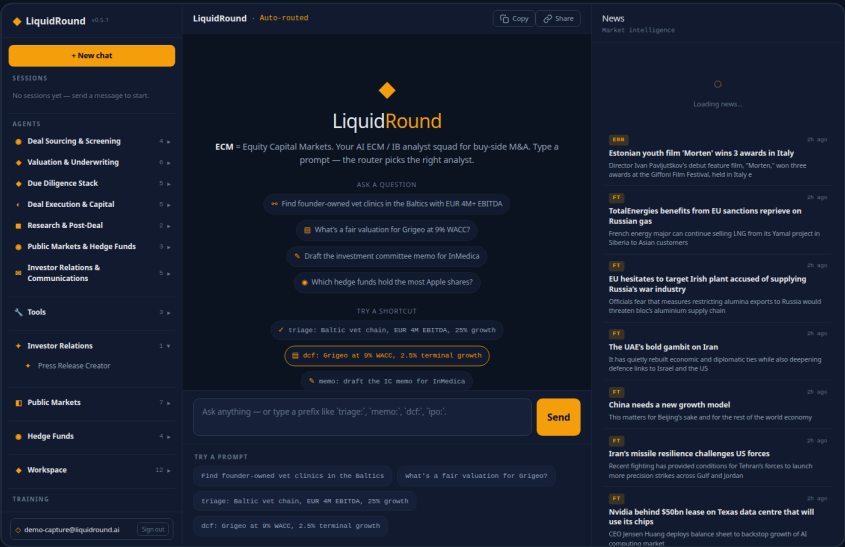

1. Open the three-pane workspace — show automatic agent routing.
2. Run a company profile or deep-research prompt in the chat.
3. Expand **Investor Relations** → create a researched press release.
4. Triage a material event with `ir-triage:` — disclosure go/no-go.
5. Export the draft to Markdown, Word, and PDF → save to Data Room.
6. Run `ir-publish:` to finalize into a wire-ready package.
7. Open Public Markets, Deal Radar, Analytics, and Skills.

Getting started

Sign in at **liquidround.ai** — choose Buyer-Led or Seller-Led. Three panes: **left** (sessions, 31 agents, Tools, IR, Public Markets), **centre** (routed chat, workspace pages), **right** (live News feed).

On mobile, the left pane becomes a slide-in menu.

Three-pane workspace — buyer view

Investor Relations — Press Release Creator

Open **Investor Relations** → **Press Release Creator** at `/app/investor-relations/press-release` . Only **Topic** is required. The guided brief supports company, release type, language, tone, audience, key facts, quotes, boilerplate, contacts, and embargo.

Press **Research and draft release** — the workflow searches the web, sends evidence to the Press Release Writer, and returns editable Markdown with source notes.

Investor Relations — the IR agent squad

Five agents cover the full disclosure lifecycle:

- **IR Event Triage** (`ir-triage:`) — materiality go/no-go under Reg FD, MAR, exchange rules.
- **Press Release Writer** (`write-release:`) — research and draft publication-ready releases.
- **IR Compliance Reviewer** (`ir-compliance:`) — Reg FD / MAR compliance check before publish.
- **IR Publish Agent** (`ir-publish:`) — approved draft → wire-ready package + checklist.
- **IR Distribution Planner** (`ir-distribute:`) — wire services, exchanges, investor lists, timing.

IR Triage — materiality assessment in chat

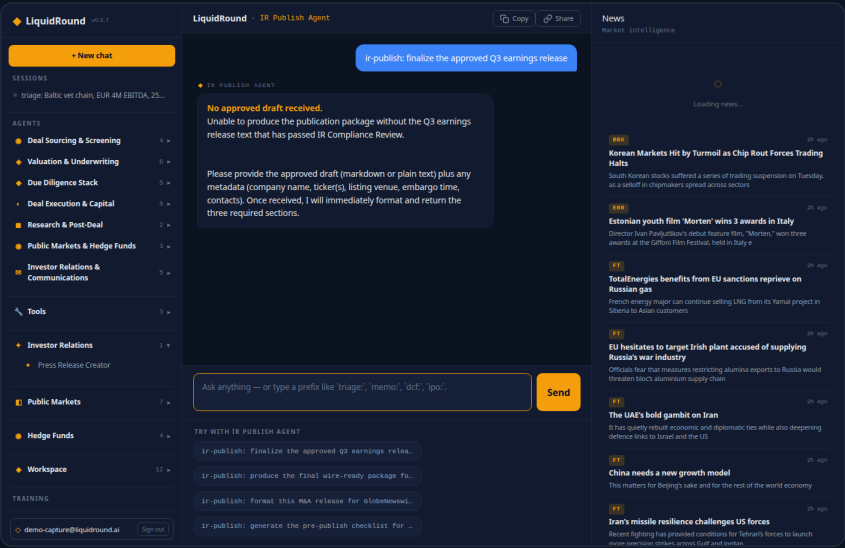

Investor Relations — publish and distribute

Run `ir-publish:` to take an approved draft and produce the final wire-ready package with exchange-compliant formatting and a pre-publish checklist. Then `ir-distribute:` plans wire-service routing, exchange notifications, and cross-timezone timing.

Demo prompts: `ir-triage: CF0 resigned` , `ir-compliance: check this draft` , `ir-publish: finalize Q3 earnings` , `ir-distribute: Nordic exchanges` .

IR Publish — finalizing a release in chat

The 31-agent squad — sourcing and underwriting

Deal Sourcing (4): Target Scanner (`scan:`), Buyer Scanner (`buyers:`), Deal Triage (`triage:`), Seller Intent (`intent:`).

Valuation & Underwriting (6): Company Profiler (`profile:`), Comps Finder (`comps:`), LTM Normalizer (`ltm:`), DCF Valuer (`dcf:`), Multiples Valuer (`multi:`), Synergy Analyst (`synergy:`).

ECM AGENT SQUAD · 7 CATEGORIES · BOTH SIDES OF THE DEAL

The ECM Agent Squad.

AI ECM / IB analysts — M&A and IPO, buyer and seller. Click any card for details and example prompts.

Every role already defined.

A squad of AIECM / IB analysts — each with a defined role and a one-word prefix. Talk to them directly or let the router pick.

Deal Sourcing & Screening

Surface acquisition targets and qualified buyers before they hit auction.

Target Scanner

Find acquisition targets by sector, geography, size — ranked by fit.

BUYER

Buyer Scanner

Identify strategic + financial buyers for a set-side process.

SELLER

Deal Triage

Go/no-go in 90 seconds against your investment mandate.

SHARED

Seller Intent Signal

Rank companies by likelihood of sale in the next 12 months.

BUYER

Valuation & Underwriting

From a ticker to an K-ready valuation in minutes.

Company Profiler

Ticker → clean profile: business model, financials, industry.

SHARED

Transaction Comps Finder

Precedent M&A and trading comps with outlier filtering.

SHARED

LTM Financials Normalizer

Messy seller financials → clean, add-back adjusted LTM EBITDA.

SHARED

DCF Valuer

Discounted cash flow with sensitivity to WACC and terminal growth.

SHARED

Multiples Valuer

EV/EBITDA and EV/Revenue across precedents and peers.

SHARED

Synergy Analyst

Revenue, cost and operational synergies — quantified.

SHARED

Due Diligence Stack

VDR audited, contracts abstracted, risks surfaced early.

VDR Auditor

Cross-checks the data room against a 140-item DD checklist.

BUYER

Contract Abstractor

Contracts → structured abstracts with key terms and page citations.

SHARED

Legal & Regulatory Reviewer

Litigation, regulatory, and change-of-control consents — flagged.

SHARED

Operational Diligence Reviewer

Reads operational DD + GoS, builds a 100-day plan.

BUYER

ESG & Compliance Risk Flagger

Envir, operational, social, governance — risks surfaced early.

BUYER

Deal Execution & Capital

Teaser, CMs, CIMs and IPO readiness — all in one workspace.

IC Memo Writer

Full IC memo — exec summary, thesis, risks, returns.

BUYER

Teaser & CIM Designer

Blind teaser + full CM positioning — buyer-ready.

SELLER

Bid Strategist

Deal structure: cash vs stock, escrow, earnouts, risk allocation.

BUYER

IPO Readiness Assessor

Financial, governance, operational readiness for a listing.

SELLER

Match Scorer

Score a buyer-target match across 7 synergy dimensions.

SHARED

Research & Post-Deal

Deep research, integration planning and match scoring.

Deep Research Analyst

Real-time deep research across web, filings, and industry sources.

SHARED

Integration & 100-Day Planner

Post-close integration plan with milestones and owners.

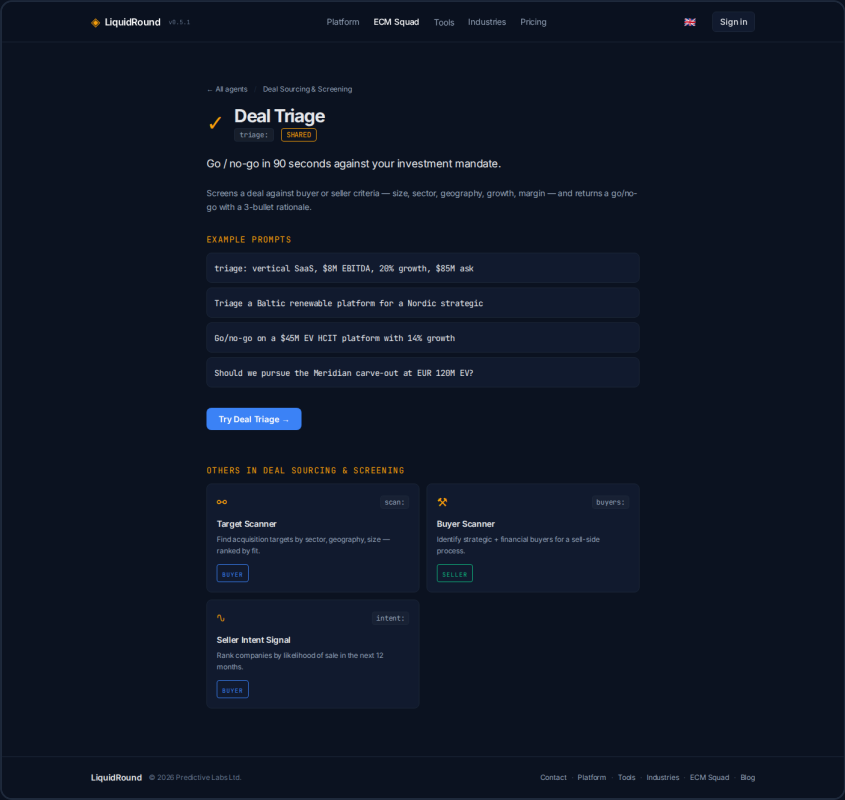

BUYER

The 31-agent squad — diligence and capital

Due Diligence (5): VDR Auditor (`vdr:`), Contract Abstractor (`abstract:`), Legal Reviewer (`legal:`), Operational DD (`ops:`), ESG Flagger (`esg:`).

Deal Execution & Capital (5): IC Memo Writer (`memo:`), Teaser/CIM Designer (`teaser:`), Bid Strategist (`bid:`), IPO Readiness (`ipo:`), Match Scorer (`score:`).

Agent detail — Deal Triage

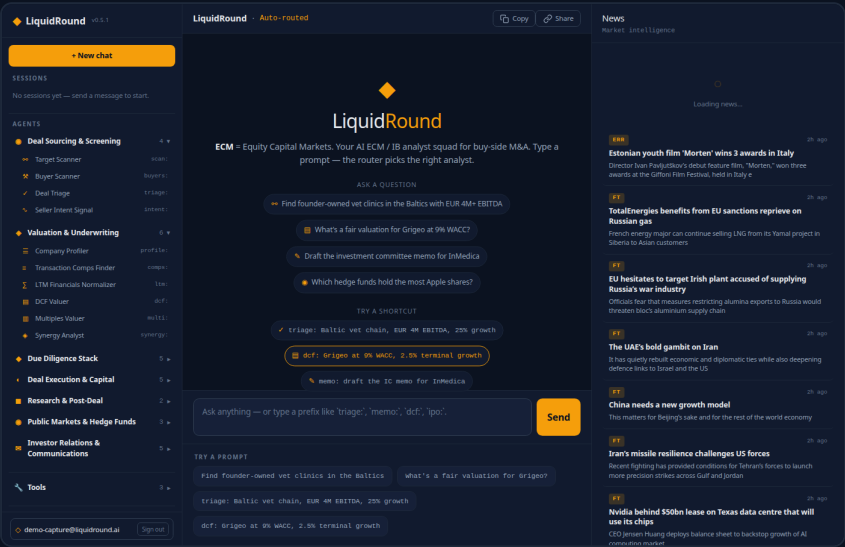

The 31-agent squad — research and public markets

Research & Post-Deal (2): Deep Research Analyst (`research:`), Integration Planner (`integrate:`).

Public Markets (4): Hedge Fund Analyst (`hedgefunds:`), Filing Analyst (`filings:`), Press Release Analyst (`releases:`), Reverse Merger Analyst (`rto:`).

Investor Relations (5): IR Triage, Press Release Writer, IR Compliance, IR Publish, IR Distribution.

Agent browser expanded

Chat, routing, and artifacts

Ask a natural-language question or use an agent prefix. The router picks the right agent; progress and tool calls stream live. Work products — profiles, tables, citations, charts — render inline. Use **Copy** and **Share** for session links.

LiquidRound - Deal Triage

CopyShare

Deal Triage

triage: Baltic vet chain, EUR 4M EBITDA, 25% growth

REVIEW

Why: EUR 4 M EBITDA at 25 % growth is attractive in a defensive, consolidating veterinary services sector; Baltic footprint offers low-cost entry for a regional or Nordic strategic buyer seeking scale.

Red flags: Small absolute size limits interest from most mid-market funds; Baltic market concentration caps organic growth and exit options; no data on customer concentration, leverage or owner dependence.

Next step: Request full CIM, customer/revenue breakdown and cap table; run preliminary market sizing on Baltic pet-care spend before any management meeting.

Request full CIM, customer/revenue breakdown and cap table;

Ask anything — or type a prefix like 'triage;', 'memo;', 'df;', 'ipo;'

Public Markets — IPO Map and SPACs

The IPO Map shows recent listings sized by market cap, colored by performance. The SPAC Tracker covers searching, announced, completed, and liquidated SPACs with trust values and redemptions.

IPO Map

Public Markets — SPAC Tracker

Track SPAC lifecycle, trust values, redemptions, prices, targets, and institutional holders.

SPAC Tracker

Public Markets — Reverse Mergers

Open **Public Markets** → **Reverse Mergers** at `/app/reverse-mergers` . Compare traditional US reverse mergers, reviewed Canadian RTO/CPC records, and SPAC/de-SPAC transactions in one normalized workspace. Filters cover jurisdiction, status, company, target, structure, evidence, and deal value. Subtabs separate traditional reverse mergers from the SPAC comparison and explain the classification methodology.

The three-year US monitor uses SEC EDGAR evidence, especially Form 8-K Items 1.01, 2.01, 5.01, 5.06, and 9.01. Canadian records are reviewed manual citations until a licensed bulk source is connected; LiquidRound does not scrape or mirror SEDAR+. Use `rto:` to ask the Reverse Merger Analyst.
